With 44,000 acres of sparkling blue water and more than 750 miles of pristine shoreline, it is home to more than just lakefront residences. Morning mist rises to reveal waking wildlife—graceful blue herons glide across the water teeming with a variety of fish from bream and crappie to large-mouth bass. At dusk, the lake comes alive in the blaze of the setting sun, providing a stunning backdrop for moonlight cruises. Here, the water is so clear you're tempted to drink it. ABOUT DON AND EDIE FULLER

Personal Attention...I supposed this is one of the most over used phrases in the real estate industry today. What do we mean when WE use it.

The Fuller Family has been a part of this area for quite some time...and we LOVE IT here! We do not plan on leaving. We will be with you throughout that search for 'just right spot' on Lake Martin that seems like it was made just for you.
